

Based in Dun Laoghaire, Airtel is an industry leader active in over 35 countries with a staff of 25 employees

SHAPE THE FUTURE OF AVIATION

Who we are

Airtel is a global leader in providing Air Traffic Management telecommunication software and test equipment for aviation, ensuring safer, greener, and more efficient operations. We specialize in Data Link systems, offering operational and test solutions to various aviation organizations worldwide.

Currently, our solutions facilitate the connection of over 10,000 aircraft to the ATC network.

WHY AIRTEL?

At Airtel, we strive to be the best, so we seek the best.

Our company values include a commitment to excellence in everything we do.
